Factory Profile

Our sourcing team continues to work diligently to stay on top of available supply from several of our well-qualified, offshore medical supplies factory partners.

Our face mask partner factories are located in several regions of China.

They develop and manufacture medical products, including various single use face masks, surgical gowns and other disposable products.

Their client bases cover Europe, North and South America, Australia and Asia.

CJ Mill has FDA approval on their 3-ply disposable face mask and is able to export internationally.

They welcome any requirements for factory audits, as needed by their customers.

Their advanced equipment, dust-free workshop and excellent quality products earn them a great reputation in the international market.

Pairing ample capacity with highly responsive staff, our factory partners are ready and able to react to your urgent requests.
