2022 OCA Construction Symposium & Trade Show

Wednesday and Thursday, OCTOBER 5 & 6, 2022 — EY Centre

Message from OCA 2022 Chairman Tim Vizena

The Ottawa Construction Association, along with its eight partner associations, is pleased to host the third OCA Construction Symposium and Tradeshow and Youth Engagement Zone running for 2 days on October 5 and 6 in the EY Centre.

It has been a lengthy Covid delay since our successful February 2020 event and we have high confidence that by October we will witness a return to 2020 participation levels of over 180 exhibitors, over 1,000 attendees and by some 1,500 students in our Youth Engagement Zone.

Attendees will be offered a rich range of presentations and **top notch** speakers starting out each day with a feature presentation and then followed by concurrent seminars in the 3 theatres located on the Trade Show floor.

To reserve a trade show booth, please visit www.o.ca.ca/symposium or contact Stephanie Wallace, OCA's Assistant GM. She can be reached at stephanie@oca.ca or 613-236-0488, ext. 15

The website will have the most-up-to-date information as well as featuring an interactive map of the trade show floor. The 2-day program of educational sessions is detailed in this guide and as in the past attendance is free. Individual seminar registration will be opened up just prior to the Symposium.

I am looking forward to seeing you there.

Tim Vizena
OCA 2022 Chairman
