Ottawa, ON | Willing to relocate | [ashabahmed.arch@gmail.com](mailto:ashabahmed.arch@gmail.com) | (519) 781-8964 | [linkedin.com/in/-ashabahmed/](https://www.linkedin.com/in/-ashabahmed/)

## Summary of Qualifications

I am a versatile architect with over 2 years of experience in residential and commercial projects, specializing in structure design, landscape architecture, construction documentation, and project coordination. Proficient in AutoCAD, Revit, and SketchUp, having successfully managed projects valued up to \$10 million, demonstrating expertise in technical drawings, MEP layouts, and code compliance. My skills extend to risk management, scheduling, bidding, and procurement. With a strong ability to collaborate with stakeholders, ensuring seamless communication and project execution from concept to completion.

## Professional Experience

### Perspex Architects and Designers, Mumbai, India.

Junior Architect

January 2023 – June 2023

Intern Architect – Part Time

July 2021 – June 2022

- Drafted, detailed, and rendered residential and commercial project designs using AutoCAD, SketchUp, Lumion, and Photoshop, ensuring precision, adherence to specifications, and effective stakeholder communication through detailed 3D models and presentations.
- Coordinated project phases from design to completion, ensuring safety regulations, client specifications, and quality standards were followed.
- Managed construction documentation for residential and commercial projects, including drafting, detailing, construction drawings, shop drawings, RFI approvals, specifications and contractor coordination.
- Participated in conceptual, elevation, landscape design and construction processes at different stages, contributing to design development and documentation.

### Azhar Bhati Architects, Mumbai, India.

Junior Architect

July 2022 – October 2022

Intern Architect – Semester 8 Co-op

February 2021 – June 2021

- Produced technical drawings, including MEP layouts for high-rise residential buildings, ensuring compliance with building codes and standards, and contributed to over 12 residential projects valued at \$8-10 million.
- Managed material procurement, change order preparation, and site inspections while tracking project progress, documenting rework costs, and maintaining logs for material deliveries to ensure compliance with project specifications.
- Participated in client meetings to discuss project progress and architectural designs, ensuring clear communication between the design team and clients.
- Successfully executed design, construction drawings, and MEP plans for residential interiors exceeding \$100K.

## Professional Affiliation & Certification

- Procore BIM Manager Certification - Procore Technologies
- Licensed Architect - Council of Architecture, India
- Future eligibility for **OAA licensing**
- Verified International Academic Qualification - WES (equivalent to a 4-year architectural degree in Canada)
- In the process of obtaining OACETT certification to strengthen qualifications in the Canadian industry.

## Skills

Software Skills: Autodesk Revit, AutoCAD, Navisworks Manage, MS Project, Primavera Risk Analysis, Sketchup Pro, Photoshop, Enscape, Lumion, Autodesk Construction Cloud, QGIS, Bluebeam Revu, Microsoft Office (Word, Excel, Teams)

Technical Skills: Risk Management, Estimating and Bidding, Ontario Building Codes, Space Planning (Macro and Micro), Working Drawing, Design Development, Model Making, and Ontario Building Code.

## Education

**Construction Management** – 3.35 GPA

September 2023 – December 2024

Ontario Post Graduate Certificate, Waterloo, Ontario.

**Bachelor of Architecture** – 7.63 CGPA

July 2017 – April 2022

University of Mumbai, Mumbai, India.
