## OBJECTIVE

Experienced, versatile and motivated forklift operator with more than five years' experience in the safe handling, loading and unloading of goods in industrial sectors. I want to use my skills in forklift driving (counterweight, reach, etc.), safety standards and stock management to contribute effectively to the logistics operations of a dynamic company in Canada. Available immediately, reliable, punctual, in good physical condition and committed to a job well done.

## SKILLS

- Driving forklift trucks (counterweight, reach, electric pallet truck, reach truck, etc.);
- Loading, unloading and moving products and materials, by hand or with the aid of handling equipment;
- Loading appliances and furniture onto a removal van and unloading them;
- Perform other material handling duties such as counting, weighing, sorting, packing and unpacking various products and materials;
- Keep up-to-date records of orders and the number, type and location of parts and supplies available, using a manual or computerized system;
- Manual and mechanical handling of heavy or fragile goods, to store and remove equipment or goods from warehouses;
- Use bulk handling equipment to load or unload materials such as sand and grit from trucks or other vehicles;
- Perform other tasks as required, such as opening containers and crates, completing orders in a warehouse, assisting with stock-taking and weighing and checking various items;
- Quality control and stock management;
- Basic maintenance (fault prevention);
- Handling with hand pallet trucks;
- Cleaning work areas and machinery
- Knowledge of and compliance with health and safety rules;
- Speed and quality of execution;

## CERTIFICATIONS

- Forklift certification 1, 4 and 5 in accordance with CSA standard B335-15
