

JIJU JOHN, CSP, CMIOSH, IDipOSH

Ottawa, ON | +1 365-324-6116 | jjuchenavila@gmail.com

Permanent Resident – Canada

PROFESSIONAL SUMMARY

Senior Health, Safety & Risk Management Professional with 18+ years of experience in large-scale industrial, oil & gas, utilities, and infrastructure environments. Certified Safety Professional (CSP) and Chartered Member of IOSH (CMIOSH) with extensive expertise in Hazard Identification and Risk Assessment, construction safety, compliance auditing, incident investigation, contractor safety management, and risk mitigation strategies. Proven ability to lead high-risk operations, implement effective safety programs, and collaborate with contractors, project teams, and stakeholders to achieve zero-incident performance. Strong background in regulatory compliance, safety leadership, emergency preparedness, and continuous improvement. Approved by the Board of Canadian Registered Safety Professionals (BCRSP) to write the CRSP examination in October 2026, demonstrating commitment to Canadian health and safety standards and professional excellence.

CORE COMPETENCIES

- Hazard Identification and Risk Assessment (HIRA)
 - Construction Health & Safety Risk Management
 - Hazard Identification & Critical Risk Controls
 - Risk Assessment (PHA, HAZOP, HAZID, FMEA, FTA)
 - Compliance Audits & Safety Inspections
 - Corrective Action Tracking & Verification
 - Safety Management Systems (ISO 45001)
 - Stakeholder & Contractor Coordination
 - Incident Investigation & Root Cause Analysis
 - Safety Training, Coaching & Mentoring
 - Data Analysis, Reporting & Trend Identification
-

PROFESSIONAL EXPERIENCE

Bureau Veritas – Subiya Power Plant (Ministry of Electricity, Kuwait)

Principal Inspector – HSE | Jun 2017 – Feb 2026

- Led and facilitated hazard identification and risk assessment activities aligned with T/HIRA principles across high-risk plant operations
- Conducted comprehensive risk assessments (HAZOP, HAZID, PHA) and ensured implementation of critical risk controls
- Collaborated with contractors and operations teams to verify effective implementation of safety measures and procedures
- Planned and executed safety audits, inspections, and compliance reviews to identify systemic issues and ensure regulatory conformance
- Monitored, tracked, and verified corrective actions, including effectiveness validation of implemented controls
- Prepared and presented management-level reports highlighting risks, trends, and recommendations for continuous improvement
- Delivered safety training and mentored staff to strengthen risk awareness and safety culture
- Supported major outage projects (1,000+ workforce) achieving zero recordable injuries (2017–2025)

Turki Al Dabbous(Construction) – Kuwait Oil Company

Safety Supervisor | Jan 2016 – Jun 2017

- Conducted workplace inspections, audits, and risk assessments to ensure compliance with safety regulations
- Investigated incidents and implemented corrective and preventive measures
- Worked closely with contractors and supervisors to improve hazard controls and reduce risks

Trio Arab Co (Construction) – Kuwait Oil Company

Safety Supervisor | May 2014 – Dec 2015

- Performed risk assessments and safety case evaluations to identify operational hazards
- Implemented mitigation strategies and monitored effectiveness of controls

Medco GTC – Kuwait Oil Company (Road and Support)

Safety Supervisor | May 2012 – May 2014

- Developed and implemented health and safety management plans
- Conducted inspections and audits to ensure compliance with regulatory standards

Kuwait Systems Co – Kuwait Oil Company (Road and Support)

Safety Supervisor | Mar 2011 – May 2012

- Coordinated incident reporting and corrective action follow-up
- Developed emergency response and risk mitigation plans

CSA Ltd – US Army Base, Kuwait

Safety Representative | Nov 2005 – Jan 2011

- Conducted hazard assessments and environmental risk evaluations
- Ensured compliance with safety procedures and emergency preparedness requirements

KEY ACHIEVEMENTS

- Facilitated large-scale risk assessments across complex industrial operations
- Achieved **zero lost-time incidents** during major construction/maintenance outages
- Strengthened safety compliance through structured audits and corrective action programs
- Improved contractor safety performance through collaboration and training initiatives

CERTIFICATIONS

- Certified Safety Professional (CSP) – BCSP, USA
- Chartered Member (CMIOSH) – IOSH, UK
- International Diploma in Occupational Health & Safety (IDipOSH)
- NEBOSH International General Certificate
- ISO 9001 / 14001 / 45001 Lead Auditor
- OSHA 30-Hour General Industry Safety

EDUCATION

- MBA – International Business
- Bachelor of Pharmacy

ADDITIONAL QUALIFICATIONS

- Strong knowledge of construction safety regulations and industry best practices
- Experience working with contractors, consultants, and project stakeholders
- Proficient in Microsoft Office and safety reporting systems
- WHMIS, First Aid & CPR/AED (Canadian Red Cross)
