## PROJECT COORDINATOR | CONSTRUCTION SUPERVISOR | CIVIL ENGINEERING PROFESSIONAL

Ottawa, Ontario, Canada | 613-853-9418 | [abdelsalam\\_odeh@hotmail.com](mailto:abdelsalam_odeh@hotmail.com)  
[linkedin.com/in/abdelsalam-abuodeh](https://www.linkedin.com/in/abdelsalam-abuodeh) | Canadian Citizen

### PROFESSIONAL SUMMARY

---

Civil engineering and construction professional with 35+ years of experience coordinating and delivering industrial, commercial, residential, logistics, hospitality, and infrastructure projects. Skilled in project coordination, site supervision, estimating, procurement, scheduling, cost control, contract administration, QA/QC, HSE, risk management, and stakeholder communication. Managed a project portfolio exceeding CA\$200 million and delivered 100+ projects, with 10-15% cost savings on selected assignments through value engineering and disciplined cost control. Canadian citizen based in Ottawa and available for construction coordination, supervision, estimating, inspection, and project delivery roles across Canada.

### CORE COMPETENCIES

---

Project Coordination | Construction Supervision | Cost Estimating & Quantity Takeoffs | Scheduling & Progress Monitoring | Budgeting & Cost Control | Procurement & Tendering | FIDIC Contract Administration | Change Orders & Claims | RFIs & Submittals | Document Control | QA/QC | HSE Compliance | Risk Management | Value Engineering | Stakeholder Coordination | Commissioning & Handover

### PROFESSIONAL EXPERIENCE

---

#### Project Director | 2025 - May 2026

##### Al-Mohtab Co. / Petro Rabigh, Saudi Arabia

- Directed industrial and commercial project execution, including planning, procurement, construction coordination, project controls, and progress reporting.
- Coordinated owners, consultants, contractors, and suppliers to maintain scope, schedule, cost, quality, HSE, and contract requirements.
- Led progress reviews, resolved site and delivery constraints, monitored corrective actions, and supported commissioning and handover.

#### Project Director / Client Representative (PMCM) | 2000 - 2025

##### Basamh for Trade Co. Ltd., Jeddah, Saudi Arabia

- Coordinated end-to-end delivery of industrial, logistics, warehouse, commercial, and residential developments from feasibility and design through construction and handover.
- Established PMO procedures, reporting routines, risk registers, project controls, governance standards, and document-control practices.
- Managed procurement strategies, tender evaluations, contracts, budgets, forecasts, schedules, change orders, claims, and stakeholder communications.
- Chaired coordination and progress meetings, tracked action items and contractor deliverables, and escalated schedule, cost, quality, and safety risks.
- Managed a portfolio exceeding CA\$200 million and achieved 10-15% savings on selected projects through value engineering, contract negotiation, and cost optimization.

#### Resident Engineer / Project Manager | 1997 - 2000

##### Fast Contracting Co., Saudi Arabia

- Supervised daily construction activities, engineering teams, technicians, subcontractors, procurement, materials, quality, safety, and schedule performance.
- Reviewed drawings, specifications, method statements, quantities, inspections, progress reports, and contractor submissions.
- Resolved field and coordination issues and supported testing, deficiency correction, commissioning, and final handover.

## **Project Manager | 1989 - 1997**

### **Darwish Saudi Arabia, Saudi Arabia**

- Managed hospitality, tourism, residential, commercial, and supporting infrastructure projects from planning through completion.
- Controlled budgets, schedules, procurement, subcontractor performance, progress reporting, quality, safety, and project closeout.
- Coordinated clients, consultants, contractors, suppliers, and site teams to deliver work within approved requirements.

## **SELECTED PROJECT EXPERIENCE**

---

- Pure Life Factory - Petro Rabigh: Industrial manufacturing facility with production buildings, utilities, infrastructure, and ancillary facilities.
- Basamh Logistics & Distribution Facilities: Multiple warehouses, logistics centres, and operational support facilities.
- Makkah Construction & Development Company Towers: High-rise residential towers with services, parking, and supporting infrastructure.
- Dallah Al Baraka Towers: Twin residential and retail towers with commercial space, parking, and associated works.
- Pilgrim's City Project: Large-scale construction requiring site supervision, multidisciplinary coordination, procurement, quality, safety, and schedule control.

## **EDUCATION & PROFESSIONAL DEVELOPMENT**

---

- Bachelor of Science (B.Sc.) in Civil Engineering - Damascus University, Syria, 1989
- Construction Management Program - Algonquin College, Canada
- PMP Training Program | PMO Framework Development Program | Project Management Certificate | Procore Certified Engineer

## **TECHNICAL SKILLS**

---

**Project Management:** Primavera P6, Microsoft Project, Procore, ProjectLibre

**Engineering & Reporting:** AutoCAD, ETABS, Advanced Excel, Power BI, Microsoft 365, Microsoft Teams
