PROFESSIONAL PROFILE

Dedicated, safety-focused Trade Specialist and Plumbing Apprentice combining practical field experience in mechanical diagnostics, piping installation, system maintenance, and facility operations. Certified across major Ontario occupational safety standards with proven reliability across commercial, residential, and industrial sites.

TRADE & MECHANICAL EXPERTISE

TECHNICAL CAPABILITIES

Proficient in blueprint/schematic interpretation, DWV and water supply layout, pipe cutting, threading, soldering, fixture installation, hazard assessments, and bulk freight material handling.

PROFESSIONAL FIELD EXPERIENCE

Lead Shipper & Receiver2023 – Present

OTTAWA MISSION — OTTAWA, ON

- Direct and coordinate distribution logistics, heavy inventory handling, and asset tracking across three regional installations.
- Safely operate material handling equipment to load, transport, and arrange bulk project freight and material stock.
- Enforce strict occupational health, safety, and workspace organizational standards throughout central storage warehouses.
- Inspect inbound shipments of mechanical tools, building supplies, and equipment for quality control and order verification.

Building Maintenance Worker2022

OTTAWA MAINTENANCE — OTTAWA, ON

- Executed comprehensive preventive building upkeep, system monitoring, and physical repairs across a high-density 15-floor residential condominium.
- Responded rapidly to live residential service requests to inspect, isolate, and repair critical mechanical and domestic plumbing issues.
- Collaborated side-by-side with general construction crews during the layout, structural modification, and execution of major common area renovations.
- Operated specialized machinery and heavy hand tools safely while complying with workplace health and safety regulations.

Commercial Sanitation & Facilities Specialist2021

NETTOYAGE PRO'S CANADA — OTTAWA, ON

- Coordinated within a rapid-response team to manage facility sanitation, chemical safety protocols, and commercial site upkeep.
- Executed commercial facility maintenance operating heavy industrial floor machinery at major public commercial sites.
